Measure, Appointment or Topic: HB3103

I'm writing to encourage you to better preserve our state forests and protect wildlife by opposing HB 3103.

This bill's emphasis on timber harvests takes away from the State Forest Habitat Conservation Plan and could harm both endangered species like murrelets or salmonids. Further the state needs to consider how this bill would impact climate change efforts by removing carbon sinks and storage.

I urge you to say no to HB 3013.

Thank you for your consideration.
