

Submitter: Timothy Eastridge
On Behalf Of: Self
Committee: Senate Committee On Judiciary
Measure, Appointment or Topic: SB1003

I believe in life. Government should never play God. .this has always been wrong and I believe the Bible is truth and it says it's a sin to kill ones self or murder a person. Time to examine this law and figure out if it's against mankind. The government has gotten to powerful in their enterpitation of what the meaning of life is. People are not lambs lead to slaughter. The God of the Bible has spoken on this and man has decided they know better then he who lives and who dies. No better than abortions and taking away a life. We need to never make life non special in its sick form or dieing form. Who are we/you to decide to make this drug a way out if life gets to complicated or hard or the loss of body parts. I say no on this bill. Pass it and may God have mercy on your souls that pass this bill into law. .
