To whom it may concern,

I am writing to strongly oppose HB3103.

The Tillamook State Forest is not just a stretch of trees, it's a place where I run, clear my mind, and find refuge. These woods are my sanctuary, where I come to meditate and reconnect with myself and the world around me.

Increasing logging in these forests threatens what makes them so special. The more we chip away at these wild places, the less space we leave for quiet, for reflection, for the kind of healing that only nature provides.

I urge you to recognize that these forests are valuable not just for the timber they hold, but for the peace they offer to Oregonians like me.

Please oppose HB3103 and protect this essential refuge.

Sincerely,

Oscar Tippol
