I urge you reject HB 3103.

Oregon's state forests should be conserved for everyone and for habitat for conservation purposes. If we the people do not conserve our resources for the people and the wildlife that depend on it, it could be lost forever. Do not give into the lumber industry and sell out our forests. The wildlife that depends on it can't just pack up and leave where as if a community isn't thriving it can pack up and adjust to another life without destroying our forests.
