

Submitter: Aaron Cooke

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB78

I support SB 78 to oppose mansions from interfering with the working nature of these lands. Further, replacing an existing building with one 4-6 times it's size with a purpose not to serve the role of working on the land, but as a playground for the rich should not be allowed. Working land is difficult to obtain by current or emerging users, and gentrification is taking it out of reach for most of them. What this means is that piece by piece we loose the benefits of these lands for their intended purpose. Please support this bill
