Measure, Appointment or Topic: HB3362

Oregon politicians just dont get it. Increasing taxes when our state is already near the top is NOT going to be a solution to any problem. You are already driving high earning individuals out of state..... just like California, New York and Illinois. Why not run more efficiently? Why not eliminate the fraud with numerous existing programs? This particular tax is going to be hardest on lower income folks, so it just does not seem like a well thought out plan. It is time to change how Oregon politicians think.
