

Dear Chair Sollman, Vice-Chair Brock Smith, and Members of the Committee

*My name is Connie McCready, I live in Wilsonville, OR and I am writing because [as a 75 year old senior citizen I can't afford to have my energy bill keep increasing at the rate it has been. When I signed up for green energy I was told that my bill would go down. It never has! In 2013 my bill was about \$50 monthly equal pay. This was with 3 people living in the house. Now I pay \$205 monthly equal pay and there is only one person in the house. I do not have natural gas and I rely exclusively on electric.*

*I never used to have air conditioning in the summer but with global warming it is totally necessary because the summers are longer and hotter and my health suffers considerably without it. I don't want to die because I can't afford to run the air conditioning.*

*I support SB 88 to make sure that advertising, legal, and lobbyist fees come out of company profits, not ratepayer pockets.*

*Connie McCready  
Wilsonville, OR*
