

Submitter: Tracy Engholm

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3103

Timber is an agricultural crop. They grow, we harvest or burn them up, they grow. If timber crops are managed wisely it is a win /win for people in the way of jobs, beauty, carbon sequestering, oxygen producing, less potential for wildfires. For animals it is much the same, for the planet trees reduce noise and wind, hold down soil and a some of the stuff mentioned for people.
