

Submitter: Charles Sweet

On Behalf Of:

Committee: Senate Committee On Education

Measure, Appointment or Topic: SB1098

I learned of this bill through AABB. I think it's necessary in the current ideological fervor to add a level of rationality, in order to allow ourselves to be more consistent with equal application of the law. It's important that libraries in Oregon support a diversity of perspectives, enabling a wider understanding of different life experiences. As such, it's necessary to pre-empt discrimination based not on education or entertainment worth, but based on ideological grounds.

I support this bill.
