

Submitter: Lynn Olson

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB1003

SB 1003 is a horrible bill, not based on any care for true process of those needing sincere support. Oregonians should not be in the business of supporting assisted suicide, but to now reduce the time frame for those in emotional need proves more of engineered population reduction than critical compassionate life support for those who find themselves in dark times.
