

Submitter: Chelsea King
On Behalf Of: Myself
Committee: Senate Committee On Early Childhood and Behavioral Health
Measure, Appointment or Topic: SB702

I oppose banning vapor products and flavored tobacco. As an adult it is my right to use these substances which are significantly better than other already illegal substances which people are still able to get their hands on. The law has banned the use of drugs however there are still issues with drugs crossing the borders and people are overdosing daily.
