

Submitter: Jean Longwill
On Behalf Of: My Native Plant Group
Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water
Measure, Appointment or Topic: HB3103

Dear Co-Chairs Helm and Owens and Members of the Committee,

One of the main things we discuss in my Native Plants Group is the importance of carbon storage for the health and welfare of our land, our flora and our fauna.

I urge you to oppose this bill. Instead, I encourage this committee to focus on measures that would increase carbon storage in our state forests and safeguard our public resources for our children and future generations.

Sincerely,
Jean Longwill
