

Submitter: david dowdy

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB1003

If you represent me, you'll vote against this measure. With the oldest PAS laws and limitless abortion license, Oregon is already heavily into dealing death to its citizens (and those from other states). It's not uncommon for patients to emerge from comas. People do get past their depressions. A drastically reduced waiting time serves only to mock serious re-consideration. The purpose of government is to preserve and protect life, not promote death. The Senate should be ashamed to bring this bill to the light of day.
