

Submitter: steve pedersen

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3103

HB 3103 simply requires an accurate, scientific inventory calculation of the Ore State Public Forests, and for the DOF to calculate a sustainable harvest per environmental laws and to make all that information public. This factual information is however, a threat to the "Zero-Cut" folks as it would complicate their disinformation strategy to confuse the public about actual harvesting (or lack thereof) on state lands. These environmental extremists will not rest until pretty much all timber everywhere is off limits to any harvesting of any kind.

Please support HB 3103.

Steve Pedersen, Bend
