

Submitter: Kathleen Krohn  
On Behalf Of: Most vulnerable people of our state  
Committee: Senate Committee On Judiciary  
Measure, Appointment or Topic: SB1003

I am submitting that opposition to this bill SB 1003 is crucial to the freedoms our country stands for. It should be up to families, to decide when their loved ones breath their last breath, not a physician, non-physician , nurse, hospice worker, nobody else! This bill reverberates with trying to take the 1st Amendment for away from the unborn, sick, or elderly that can't speak for themselves. Please let this bill die, or the blood of those that are effected by it will be on your hands.

Respectfully,  
K Krohn
