Born and raised in southwest Oregon Timber industry has been bread and butter for 3 generations of my family, sustainable Timber harvested has been a long carrier of 41 years of my life ,In the last 20 years observed the United States forest service neglect our national Timber lands along with Bureau of land management, Let it burn is there revenue mentality, they grow corn in Kansas and Timber in Oregon let's get back to sustainable harvesting for O & C Timber receipts for county's, schools, quit raising taxes and put stewardship of our lands its just common sense, jobs mean payroll, payroll pays bills
