

Submitter: Diann Washburn

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB3103

This is a common-sense good governance bill that directs the state forester to establish and publish sustainable harvest levels on state forests, develop a modern timber inventory model to track forest conditions and guide responsible management, ensure timber sales support timber-dependent communities, and above all, provide greater transparency and accountability in how our state forests are managed. I support HB 3103.

Thank you,  
Diann Washburn
