

Submitter: Kathleen Krohn  
On Behalf Of: The general public  
Committee: Joint Committee On Transportation  
Measure, Appointment or Topic: HB3362

I adamately oppose this HB 3362! There is enough tax dollars in the pot for the state to take care of our transportation needs and you all know it. Quit trying to get more money out of the citizens of this state while you take our tax dollars and pay for illegal immigrants to be housed, fed and insured. This is just another ploy to sifen off more of our hard earned money while you distribute it the way you want to i.e. beauracracies defending DEI and Climate Change while neglecting the main reason for our taxes, namely fixing roads and reducing congestion in big cities. You can't fool us any more, so stop trying to create a new tax!  
K Krohn
