

Submitter: Rebecca Davis

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

Please quit finding ways to put such tax burdens on Oregon citizens. The majority of us struggle and live paycheck to paycheck without reserves. Please find ways to work within smaller budgets and make cuts as needed. Most hardworking citizens have to. In most households, we need to get creative in order to afford certain things - including necessary things such as health, utilities, and travel to and from work. It seems we keep getting more and more added to our daily cost of living with no reprieve. Please just stop. It may be just a little bit for you, but not for all of us, and when you keep adding all those little bits, it just becomes too much. It needs to stop. Please.
