Please support SB1098. When I was young the magic of books was opened to me by a Library on Wheels (a bus) coming to my elementary school each week. Thus began my love of books, reading and finding out that I could have an adventure of learning that had been unknown to me before. After elementary school, I was an avid user of the local public library and have been in all my life since then. I cannot imagine having not had the opportunity to read the books that I did. Some of the strange ideas and rules being suggested in my community these past few years alarm me, as I am certain that some of these well renowned – popular and valuable books would be banned. Please support SB 1098.
