On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB3103

Our timber industry needs this. This provides resources for the state and the income that it provides for the working families. I am a true Oregonian, born and raised. Our timber is burning to the ground with mismanagement. Something has to change now and that means getting sustainable harvest up for logging. Log it, thin and manage the under brush and planting new trees for the future. With the WASTE that the government has caused in damages with our timber, I support this bill!!
