

Submitter: Colinda Lennox

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB3103

I am expressing my support for HB3103, I feel it is a common sense, good bill that aligns with both the Oregon and U.S. Constitutions, which call for responsible management of our natural resources for the benefit OF THE PEOPLE.

My understanding of HB3103 it will direct the state forester to establish and publish sustainable harvest levels on state forests, ensuring that timber sales are transparent for local businesses that depend on this resource. This bill does not increase harvest levels but will provide clarity and accountability in forest management. By implementing an inventory system and ensuring transparency, it will better support timber dependent communities and help prevent wildfires by responsibly managing of our forests health.

At its core, I feel HB3103 is about following through on promises made, and ensuring that our state's resources are managed effectively and responsibly.

I encourage you to support this bill, as I feel it represents good stewardship of Oregon's forests, our economy, and the well being of our communities.

Thank you
