

Submitter: Jen Hamaker

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

ONRI's mission is to protect, defend, and support natural resource jobs, families, communities, and businesses. HB 3362 directly and negatively impacts millions of Oregonians. Democrats keep raising our taxes and providing less in return. This is yet another tax that will punish Oregonians. Democrats hold the supermajority, this bill takes full advantage of that capacity. Stop punishing Oregonians by raising taxes and fees. If more money is what you're after, open up our renewals sustainable forests to management so that they stop burning down, costing us \$\$\$millions, while creating revenue and jobs that put money back in our treasury.

Sincerely and with extreme concern,

Jen Hamaker  
President  
Oregon Natural Resource Industries
