On Behalf Of:
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

Joint Committee of Transportation...

One day the legislative process will over reach the tolerance of the people.... what will that look like ?

Taxes on Tires must certainly be seen as abuse knowing Gas Tax was just increased 50 cents in Oregon... seen a vid in Mississippi where gas was \$2.66 a gallon (that was last weeks video).

Can't wait to see what Portland is going to do over Toll Roads... and to think people already paid for these roads.

I would think a legislative body would be concerned about over reach.

HB 3362 IMO just shows more contempt for people on tight budgets... Electricity rates... cost of food, insane cost of rent increases since 2019 Legislation to fix rates ???

Honestly don't know whether to laugh at the Oregon demise or encourage the coming storm (it is coming...).

Just sayin...
