

Submitter: Christopher Rocque

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

This proposed bill is one more added burden on us taxpayers, one that, piled on top of all the others that make Oregon one of the highest-taxed states in the country, is unfair and unnecessary. We have a significant gasoline tax already, that should be more than enough, if used for what it is intended, to take care of the roads and highways adequately.
