

Submitter: J Trimble  
On Behalf Of: Moms For Liberty Douglas County  
Committee: Senate Committee On Education  
Measure, Appointment or Topic: SB1098

Please oppose this bill that would take away the authority of our school boards to eliminate offensive or non-age appropriate materials in any classroom or library of said schools. Yes, parents can opt their children out of certain books and materials but that rarely happens as most parents do not know what is in their children's textbooks or libraries openly available to them. Removing obscene, offensive or non-age appropriate materials is not discrimination against any class of individuals but keeping children's innocence and schools should already be actively doing that. Thank you for your time.
