

Submitter: Troy Builta

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

As a citizen of Portland Oregon, I request that no taxes be put on tiers through the proposed HB3362. It is not good for our people that are struggling to just live in this city. We have overpriced utilities and food that do not match the wages in this area. Housing is at an all-time high, pushing people, including our vets that sacrificed for all of us, out on the streets and you want to pass another bill to line your pockets! NO! This has to stop now, and we the people will not keep taking it! this is how empires fall! Fix the stuff you said you were with the extra taxes you already established. No new taxes on roads, tiers, miles... anything!
