I oppose this ridiculous TAX! Will Oregon ever become a common sense state? I am afraid not. Things like this drive hardworking citizens away from this state to seek a life elsewhere. The constant taxation and misuse of funds for pet projects that don't fix anything is out of control. The Piusness of the democrats and their self-serving special interest has got to stop. They say there's no sales tax in Oregon but Salem sure finds a backdoor to tax everything. Glad I'll be moving from this dumpster fire when I retire so they can't rob me then as well.

Signed,

One fed up tax paying citizen
