Measure, Appointment or Topic: HB3103

I am writing as a private citizen and not representing any other organization or entity.

I am writing in opposition to HB3103. As we face increasing biodiversity loss and extreme weather events, we cannot afford to have our forests - which provide vital habitat and ameliorate the impacts of extreme weather - decimated by increased logging.

We need lawmakers, now more than ever, to stand up for the rights of our citizens and not corporate interests.
