

Submitter: Staci Smith
On Behalf Of:
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

I'm opposing this measure because it's absolutely ridiculous. You're trying to tax an essential necessity that every single one of us needs at least once every couple years. They are already insanely expensive. Marked up overexaggerated in price. We're already taxed on nearly everything here in Oregon. Oregon has the most taxes of any other state. And I know you realize that, but what you're trying to do now. By taxing tires, it's like taxing milk. It's just another tax to add to the already 8 taxes on my pay stub, than I can even explain so yes, I'm opposing this measure.
