

Submitter: Patricia Guild

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB3103

The State of Oregon is already losing Douglas fir forest due to heat and drought (Ashland), and I am very concerned about upsetting the balance even more. Our forests provide many services to both people and wildlife, including the cleaning of our air and water, and the moderation of temperature.

I do appreciate wood products, but these decisions should be made by educated Oregon foresters, and Native Americans, NOT government officials in DC.
