

Submitter: Eric Blatter  
On Behalf Of: Eric Blatter and Oregon  
Committee: Joint Committee On Transportation  
Measure, Appointment or Topic: HB3362

I've read "On Tuesday, the Joint Transportation Committee will hear HB 3362, which will tax every tire you buy going forward and divert the funds to non road programs."

Is our legislature only good for passing more taxes and delusional DEI programs? Why are taxes (and not intelligent use of tax dollars) so important to the Democrats? Why for example did ODOT use millions of tax dollars meant for road repair go to multi-million dollar bike paths? For which those users do not have to pay the same taxes and fees as others? How is it as the highly taxed citizens we are we must always pay new taxes on things already taxed? I'm sick of the waste of Oregon's tax dollars due to "woke" beliefs and delusional thinking.

Respectfully,

Eric Blatter  
Sandy, Oregon
