Hello,

I'm a voting resident of Oregon and I'm writing today to OPPOSE HB3362 - ENOUGH with additional taxes. Please DO NOT burden the citizens of Oregon with more taxes by taxes our tires! We are already paying a tax on everything we buy now due to the CAT tax that you implemented on the Gross Income of private businesses! Now you want to tax tires so that we pay for the CAT tax and an additional tax on the product (tires) themselves - come on man! We have enough taxes already for the state and it's time to balance the budget, make cuts if necessary. The tax burden on the residents of Oregon is enough!
