

Submitter: Jennifer Stewart

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB1003

I strongly oppose any law that promotes assisted suicide as it can so easily be abused. I affirm the right to life at all stages, even understanding that many end of life situations can be very hard for the person and the family. Still, there are many precious moments to be experienced inside of the challenges, and we should always fight to preserve life when possible. Legalizing assisted suicide is promoting a culture of death.
