Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB1003

Honorable Committee Members,

Please Oppose SB1003. There are examples of people who decided to commit suicide, tried, but failed. Then in time changed their mind and were happy to put that part of their life behind them. It doesn't hurt to have a waiting period just in case they do get the help they need and a good life after.

Thank you for your time reading this message.
