

Submitter: Bradley Bettis

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB1003

Dear Senate Committee,

I am writing to oppose the SB 1003 bill, to allow easier access to suicide. Human beings do not cause ourselves to be born, nor is it healthy or ethical to elect to die. This is the role of God and to make this easier is to stand against the Creator and keeper of life. As an Oregonian I am expressing my voice that I do not want our state to make move in this direction. Thank you for hearing my perspective.

Sincerely - Bradley Bettis
