

Submitter: Pamela Fields
On Behalf Of: Self
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

I am submitting testimony to oppose House Bill 3362 that imposes a new tax on tires. Oregonians from all walks of life are suffering daily under the astronomical costs of inflation. Passing another tax upon your constituents without a vote of "We the People" needs to be stopped now. This is without a doubt, not something that would pass through a public vote. This is nothing more than a direct attack on working class Oregonians, particularly those in rural areas, who have to drive longer distances to get to work.

I ask that you please do what is right, and stand up for your constituents by voting "NO". DON'T TAX OUR TIRES!
