

Submitter: Janet Albers

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB1003

I am strongly opposed to SB 1003, the "death on demand" assisted suicide bill. It is not for humans to decide when their expiration date is. A season of depression could cause a person to choose death when they could instead be counseled back to emotional health, and contribute positively as a functioning member of society.
