Committee: Joint Committee On Transportation  
Measure, Appointment or Topic: HB3362

Good morning:

Your taxing of tires. A tax is a tax....

I maybe be confused but I was thinking Oregon did not have a sales tax. Not unlike the tax that has been attached to hardware and lumber purchases it seems a tax by another name is not a tax and those in Salem don't care about the Oregon Constitution. You are fooling no one by using different verbiage to tax those that you are supposed to work for, not against.

I would request you reread your oath of office and ponder the right and wrong of your actions. Instead of all working hard to get around the Constitution work hard to stay within it.
