Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

I support wildlife crossings. I grew up in Klamath Falls and my family made many trips to Portland to visit relatives and for orthodontic appointments for me, as there was not an orthodontist in Klamath Falls in the 1960s. It was a usual occurrence to see many dead deer along the roadside on those trips. Wildlife crossings have really made a difference for the animals. A small tax on tires is a reasonable request to save animal and human lives.
