

Submitter: Dan Ellis

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

You're taxing us to death. Please don't impose yet another tax on us! My wife and I rely on our car to make it to work every day, and we even carpool to save money, but everything you do seems to be focused on destroying the middle class and making it impossible for us to earn a living.

Please don't tax our tires!
