Measure, Appointment or Topic: SB702

As an American citizen, I agree with neither the passing nor creation of senate bill 702. This bill is a violation of our right to choose and our rights as American citizens in general. This bill claims to be for the safety of the children. If this bill is seeking to ban flavored inhalants, why not ban other 21+ products such as flavored alcohol. Those liable for enacting this bill should have educated themselves further on the overall alcohol consumption of minors not only in Oregon, but altogether. Why pick and choose? this bill is not necessary especially in comparison to other issues and that should be take into account.

Thanks, NL
