

Submitter: Ron Leifeste

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB1003

Two days is not near enough time to make a decision that will not only affect the end of a persons life on earth but will very likely affect their soul for eternity. You cannot take the life that God gave you and throw it back in His face. Not without consequences anyway. I strongly oppose this dangerous law. People who support it will be held accountable by God Himself. These laws are NOT dignified!!
