

Submitter:

MIKE SLAGLE

On Behalf Of:

Committee:

Senate Committee On Education

Measure, Appointment or Topic:

SB1098

I strongly oppose this bill. As I have seen in schools since covid exposed what is going on, that there are some very inappropriate books that promote immoral ideas into impressionable young minds. Get back to a merit based education and not focus on radical ideas that do not help our youth grow into productive humans that help society.

If you don't believe me go look into libraries and some of the material. I do not support book banning, just inappropriate ideas that poison our youths mind that are overly sexualized.

I oppose this bill!
