

Submitter: Heidi Trambley

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB3103

I fully support House Bill 3103 because it is a critical bill that will ensure predictable, sustainable timber harvests on state forests—providing long-term certainty that Oregon’s forest operators, loggers, and small businesses need to continue supplying the workforce the ODF depends on. Oregon needs sustainable harvest levels that balance environmental and economic priorities, ensure timber sales align with sustainable harvest goals to support local economies and timber-dependent communities, and increase transparency and accountability in managing our state forests. It’s tough to run a forestry company in current economic times but even more difficult with no long-term commitment that state harvests will align with long-term, sustainable goals! This is a renewable resource that needs a schedule to ensure it remains sustainable and renewable. Thank you.
