

Submitter: Todd Brumfield

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

In general, I am opposed to new taxes without adequate representation and a vote of the public. I would not be opposed to a tire tax IF 90% of the proceeds went to road maintenance and repair, with 10% going to resolving issues surrounding the disposal of used tires. Mass transit works great for Portland, Salem, and Eugene. The majority of Oregon does not rely on mass transit!
