

Submitter: David Bates
On Behalf Of:
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

To whom it may concern,

I am opposed to new taxes on tires. I would be less opposed to taxing tires if you only taxed electric or hybrid vehicle tires. We middle class folks raising families already pay enough in our fuel taxes and license and registration fees.

Financially pinching the middle class with a tire tax will only encourage folks to run tires longer than they should, or run lesser quality and/or used tires - which makes the roads less safe for all.

Sincerely,

David Bates
