

Submitter: Gary Goodwin  
On Behalf Of:  
Committee: Joint Committee On Transportation  
Measure, Appointment or Topic: HB3362

I oppose this HB 3362 the people have spoken many times, No More Taxes. The WOKE leadership is just doing another underhanded trick against our people to drain our pockets. We already have a federal and state tax on the tire's. Our state DOT is in total disarray, along with POOR management they have projects that they have spent Millions on and they aren't even off the drawing table. Last but not least this TAX will not go to ODOT at all It's going to Lite Rail ! This bill is going to support Lite Rail and other pet projects that are a burden on our sane people in what used to be a great state. The WOKE 1 or 2 % of our population is burying this state in red tape and higher taxes that we don't have a say in. The state of Oregon can't budget the money they collect now, why give the state anymore money to squander. Our governor can't think for herself she looks to California for her thoughts, what a surprise look at California there rail system is Billions in the negative and no rails on the ground. Oregon needs to wake up. NO MORE TAX'S.
