

Submitter:

Claire Penn

On Behalf Of:

Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB1003

My name is Claire and I strongly oppose SB1003 because I believe in Life. Our Creator God created us to live for His purpose and not die until He decides it's our time. He is the Author of Life and He came that we might have Life and more abundantly. When a person is sick and suffering they are not always able to think clearly about life because they are in pain. Death is not the answer. We can do better for these precious people. Like my mother always says, "if we can go to the moon and back we should be able to do better." Jesus Loves these people and all mankind and that is why He died on the cross for our sins and was buried and 3 days later He rose again!!! He is the giver of Life and our job is to comfort these people not kill them. Suicide is not comforting and it's not right to kill these vulnerable people. This death bill is appalling and I know because I am a caregiver for over 30 years now. I have seen people dying and I have cared for many people. They need love and compassion and comfort not death. Jesus Loves all mankind and that is why He gave His Life that we might have Eternal Life in Him if we believe in Him and follow Him. He raised the dead not killed people. When people have hope they want to live and our job is to give them hope. They can get better. This bill is unacceptable and needs to be removed and not implemented at all.
