

Submitter: Mark Nelsen

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

I oppose this bill to add taxes to a purchased item where the funds would not be allocated to necessary repairs on our crumbling roads and bridges. This is what you call incremental creep. First it's tires, then it's auto repair, then it's auto parts, then who knows what else. Try using the existing budget appropriately on the needs of the citizens of Oregon. Added taxes are continually voted down. What part of "NO more" are you not hearing. Thanks.
